A strong memory and a healthy brain aren't as difficult to maintain as one might think; combining the latest neuroscience research with age-old wisdom about resilience, mindfulness, and stress reduction, Drs. Henry Emmons and David Alter show that vibrant aging is within reach. Together they demonstrate how to blend the best of modern science and Eastern holistic medicine together to form a powerful drug-free program to maintain a youthful mind and a happy life. With more than fifty-five years of combined experience in the fields of neuroscience and psychiatry, Dr. Emmons and Dr. Alter have taken their expertise and translated the fundamentals of brain science into an easily accessible collection of the nine key lessons proven to preserve and strengthen mental acuity.
